REVV G3

G Series Pedal

- 1. **Input** Guitar in.
- 2. **Output** Out to amplifier
- 3. **Power** See requirements below for safe operation.
- 4. **Bass** Adjust low end level.
- 5. **Middle** Adjust mid level.
- 6. **Volume** Adjust output level.
- 7. **Aggression** Engage (up and down) clipping, or disengage (middle).
- 8. **Treble** Adjust brightness level.
- 9. **Gain** Adjust saturation level.
- 10. **On/Off Switch** Engage or disengage pedal.

The Power Requirements.

Recommended Voltage: Power is 9 volts and 14mA. Isolated Center Negative Tip External Supply Only.

Understanding the G-Series

G-Series pedals are all-analog sonic recreations of Revv's flagship Generator 120 amplifier channels. As such, they should be treated as preamps, or "amp in a box" pedals. They can be played in front of a clean amp, run directly into a power amp, or used in hybrid setups with modelers & impulse responses. G3 is based on the Purple Channel: clear high gain with a midrange focus & "stringy" attack great for note clarity & downtuning.

Getting Started

Power only via isolated 9v center negative power supply. Start with Volume at zero & all other knobs at noon. Engage G3 & raise Volume to a comfortable level. G3 has a very aggressive & tight tone designed to cut through the mix, so if you're looking for a thicker sound, do not be afraid to increase Bass & scoop the Middle control. This is a very high gain pedal, so if you encounter noise, evaluate your Volume, Gain, & Treble settings throughout your entire rig & balance them for best performance.

Aggression Voices

G3 has 3 Aggression voices controlled by the center toggle switch. While they can be broadly thought of as controlling the amount of distortion (Off = least, Blue = medium, Red = most), these 3 voices substantially alter the performance of the pedal. Red Aggression is the go-to setting for liquid, satisfying distortion, while the Off position provides a surprising array of touch-sensitive mid-gain tones.

Warranty

Please fill out the form on the website below within the next 30 days to claim your warranty. Revv Amplification will repair or replace: defective workmanship or materials at its discretion on all new Revv Amplification products purchased directly or through authorized dealers for one year from the day of purchase. This warranty does not cover shipping costs, product appearance, or damages caused by accident, abuse, alteration, or misuse. No other warranty is expressed or implied.
